

DuoMesh

Stainless Steel Lined Basket Filters

DuoMesh lined basket filters have been designed to be used in standard bag filter housings and to provide cost effective filtration for a wide range of applications.

The baskets are manufactured from 316L stainless steel mesh so can be cleaned and reused time and time again. DuoMesh basket filters are available in a range of removal ratings from 50 –2000µm so can be used for fine, medium or coarse clarification or as a prefilter to finer filters downstream. They are available as single, double or triple length baskets and in different diameters.

Product Features

- Robust construction in 316L stainless steel
- Available in single or triple layer mesh providing removal ratings from 50 to 2000µm
- Can be supplied as single, double or triple length baskets
- Range of collar sizes available
- Offered with a handle to aid removal from housing
- Consistent and reliable performance under a wide range of process conditions

Filter Housings

Amazon Filters manufacture a comprehensive range of filter housings for the DuoMesh baskets. These can be manufactured from a range of metals and in different sizes so can be supplied to suit all flow rates. Please consult our Sales Office for further details on these ranges.

Features and Benefits

- Available in a range of removal ratings so suitable for a wide range of filtration applications
- 316L construction offers wide chemical and process compatibility
- Offered with a handle to aid removal from housing
